Your EMPI carburetor(s) come equipped with the Main, Air, and Idle jets most often used in the kit's particular application. Although it is a bolt-on kit, with the necessary hardware, gaskets and linkage to install the carburetor(s) onto the desired motor - The carburetor(s) are jetted not engine size specific. Multiple engine displacements, compression, camshafts, ignition, cylinder heads, and many other items such as operating elevation, will affect the overall requirements of the air/fuel ratio and may require additional jetting and tuning. A wide variety of jets and components are available at your EMPI dealer.
